

Message #9 – “Jesus is Lord of my FAMILY”

**Review:**

“Lordship” = Jesus’ total control of every area of my life.

The family is the primary social relationship that God has established. So goes the family, so goes everything! Satan knows this and will do everything in his power to destroy the family. His strategy is to “divide and conquer” and he is very successful. As Christians we must live out Christ’s design for the family in order that we might not just survive but thrive.

**Relational Irony:** God has put us into families for our growth and development.

YET,

We are all broken and dysfunctional people and are part of broken and dysfunctional families.
